About

a third-year student of Information Technology at University of Muhammadiyah Prof. Dr. Hamka with current GPA 3.72. I'm used to build a website with Typescript Language for both Front-End and Back-End and integrate them through REST API or GraphQL. I have basic knowledge of HTML, CSS, JavaScript, and ReactJS to build a Front-End and currently I have been learning NestJS to build a Back-End with NodeJS and TypeScript. In addition to knowledge of Web Technology, I also have basic knowledge of native Android.

Education

Bachelor of Information Technology
September 2018 - Present

Experience

Bangkit Academy
February 2021 – July 2021
Learning Fundamental of Android Application and at the end of program I created Android Application about nutrition control by slicing design from Figma.

Skills

HTML	Node.js
CSS	NestJS
JavaScript	Kotlin
TypeScript	Android
ReactJS
